**ET**
The University/Institution :
.....
.....
.....

Represented by its President/Director.
**Hereinafter referred to as the «Identity Provider»**

**The following has been agreed:**

The Moroccan Identity Federation for Education and Research (EduIDM) is a service providing a technical infrastructure for sharing web resources between its members.

The Identity Federation connects Identity Providers (hereinafter referred to as IdPs) and Service Providers (hereinafter referred to as SPs) by exchanging the data of the authentication and the authorization of users in a trust environment.

## Article 1 : Agreement Object

The purpose of this agreement is to define the obligations and the rights of parties.

It consists of the present document, the federation policy (eduIDM) and the document designating the representatives of the Identity Provider.

## Article 2 : Technical Requirements

In order to ensure communication between SPs and IdPs, these latter must send to SPs a set of information about identities of users in the form of attributes that are defined in schemes of LDAP directories.To ensure compatibility with eduIDM federation, LDAP directories must have the following object classes and attributes:

| Object classes | Attributes |
|---|---|
| inetOrgPerson | • givenName<br>• sn (surname)<br>• Mail |
| eduPerson | • eduPersonAffiliation<br>• eduPersonPrimaryAffiliation |
